

RUN-EU FOOD CHALLENGE

1-4.NOVEMBER.2021

PROGRAMME DESCRIPTION/OBJECTIVE

The RUN-EU Food Challenge coordinated seeks students from all levels within the RUN-EU consortium to join interdisciplinary multicultural teams proposing novel, potentially disruptive, sustainable solutions to reduce food loss and waste across the full breadth of the food supply chain from "farm to fork". Under this challenge, applications we are asking teams to propose to develop cutting-edge and disruptive technologies in a range of areas. The Food Challenge proposals should be visionary drawing on insights relating to current trends and future possibilities where Europe and the world could benefit significantly. The Food Challenge should be inspirational and provide the basis for strong engagement between public and private sector stakeholders, and with the public and address barriers to innovation, which, if overcome, can create significant benefits for society. The challenge will run from 1 to 5 November 2021 during the RUN-EU General Assembly week meetings.

PROPOSED LEARNING OUTCOMES

At the end of this RUN-EU SAP students will be able to:

- Apply critical thinking, creative problem-solving concepts and design thinking models and tools for solving learning challenges
- Work in multidisciplinary, multicultural and co-creation environments
- Communicate information, ideas, problems and solutions to both specialist and non-specialist audiences clearly
- Propose solutions for societal real problems and challenges that demand innovation and a varied set of skills
