A COLLABORATIVE
PROCESS

11.APR-12.MAY.2023

Face-to-Face Week: IPCA, Barcelos, Portugal 9-12 May

Co-creating has proven to be a very successful way to generate value, enrich consumers' experiences, and ultimately create products that seemlessly solve real problems sustainably and ethically.

This SAP is about internationalisation. It aims for students to explore new technological developments, interconnectedness, and product development with visual programming. Students will find tools, attitudes and work strategies that they can take with them into their academic and professional lives.
