

# SUSTAINABLE FOOTWEAR FUTURES

**15.MAY-02.JUN.2023**

## SAP OVERVIEW

Sustainable Footwear Futures is a skills enhancing and sustainable practice based programme enabling participants from design, fine art and engineering degrees to explore creative applications for regenerative fibres and digital fabrication techniques for textiles, pattern drafting, technical footwear production techniques and innovative digital design processes.

Each of the partners come from a strong background in Fashion, Textiles and Footwear Design.

TUS, LSAD will lead the textile element, based on the expertise developed in Fashion and Textile Design. IPCA will lead the digital fabrication element and HAMK will lead the creative and technical pattern drafting and production element.

## LEARNING OUTCOMES

At the end of this RUN-EU SAP, you will be able to:

- Understand design contexts and applications relating to creative textile design processes and demonstrate how they can be applied to sustainable future footwear
- Demonstrate abilities in digital design techniques and virtual communications for footwear in response to design concepts.
- Understand and apply the different approaches and methods in technical pattern drafting and assembly and utilise innovative and traditional production techniques for creative footwear prototyping

🕒 10h00-10h45

👥 Group work

👤 Rebecca Marsden TUS, LSAD, Ville  
Siipola HAMK, Hugo Palmares IPCA

Teamwork, discussion, and instruction as to what to expect during the SAP, online week by IPCA, TUS - LSAD and HAMK, and online week presentation.

## Sustainable Industry Research Institute ID+

🕒 11h00-13h00

👤 Pedro Carvalho de Almeida and  
Abhishek Chatterjee (Invited  
Lecturers ID+)

For this first online seminar, researchers from ID+ institute are invited, presenting and sharing the importance of footwear industry and craftsmanship in Portugal. Consideration is given to the industrial and sneakers heritage, brand archives, and sustainable approaches.

## Sustainable Industry Emerging Brands

🕒 14h00-16h15

👤 Industrial Partners

In the second online seminar, sustainable footwear brands are invited, presenting and demonstrating good practices for a sustainable business mindset. An awareness of eco-friendly processes, sustainable & ethical footwear, caring for the ocean and earth.

👤 Hugo Palmares IPCA

📄 In the fifth online seminar we introduce a footwear designer experience and skills, an introduction to point perspective digital illustration will provide the basis for the digital illustration workshop.

## Workshop Digital Footwear Illustration

🕒 11h00-16h15  
👤 Individual

👤 Hugo Palmares IPCA

📄 An all-day workshop on digital output, using adobe illustrator and adobe photoshop software, for a futuristic footwear design representation and concept. The workshop intends to explore with the participants new shapes and concepts for footwear designed for the future. Shapes, textures and materials are explored in digital image based on existing industrial products, deconstructing these products and functionalities, adapting them to the shape of a shoe and the benefits of use.

## Circular Knit Techniques & Materials

🕒 10h00-11h00

👤 Rebecca Marsden TUS, LSAD

📄 Participants will gain an understanding of the versatility of knitwear from next-to-skin to innovative footwear. This lecture will focus on identifying the range and complexities of knitted structures and how they have evolved to bring us performance sportswear and high-fashion footwear. Participants will gain insights into the latest knitted textile technologies and how these developments are impacting sustainable design and future footwear.

## Footwear Design Techniques & Materials

🕒 11h00-12h00

👤 Ville Siipola HAMK

📄 Introductory presentation by the lecturer experience and skills, according to the techniques and materials. Also an instruction on what to expect during the face-to-face week, HAMK facilities, accommodation & travel arrangements.

## Footwear Process & Outcome Techniques

## Welcome

- 🕒 09h00-10h00
- 👥 Group work
- 👤 Rebecca Marsden TUS, LSAD, Ville Siipola HAMK, Hugo Palmares IPCA
- 📄 Face-to-face introductions, Briefing, discussion, and instruction as to what to expect during the SAP, Face-to-Face week by TUS - LSAD and HAMK.

## Materials Introduction Workshop

- 🕒 10h00-12h00
- 👤 Rebecca Marsden TUS LSAD  
Ville Siipola HAMK
- 📄 Material elements breakdown and properties investigation. The goal of the lecture is to analyse and understand properties, behaviours and performance of regenerative and sustainable materials and materials appropriate for footwear design. Participants will have the opportunity to examine materials, identify certain characteristics and explore their behaviours over the course of this introductory session, preparing them for more in-depth explorations and prototyping.

## Materials Introduction Workshop

- 🕒 13h00-16h30
- 👤 Rebecca Marsden TUS LSAD  
Ville Siipola HAMK
- 📄 Ideation workshop. The goal of the workshop is to combine knowledge from the previous workshop into ideas about footwear and sustainable textiles. Lecture about the movement and mechanics of the foot, the forms and purpose of lasts and how they affect the design process. The core focus of the workshop will be focused on prototyping and testing. Techniques such as knitting, weaving, felting and dying will be explored. There will be an emphasis on sketching, photography and video documentation.

## Paper Prototyping Footwear Workshop

- 🕒 13h00-14h30
- 👤 Ville Siipola HAMK
- 📄 This workshop is all about turning ideas and sketches in to three-dimensional form and explore shapes and forms using the last to assist in the sculpting and modelling of concept footwear. This will also help in understanding shoe constructions and patterns.

## Forming Fibres- 3D Textiles Workshop

- 🕒 14h45-16h30
- 👤 Rebecca Marsden TUS LSAD
- 📄 This workshop will build on the material behaviour knowledge gathered in the previous workshop and focus specifically on 3D material surfaces and techniques to achieve surface interest and optimise textile behaviour for footwear. As before, the workshop will be focused on prototyping and testing, from fibre to mixed media and there will be an emphasis on documenting in order to share the process and evolution of design with peers and reflect on concept development and application of techniques.

## Future Footwear Concept Development

🕒 10h00-12h00

👤 Rebecca Marsden TUS LSAD  
Ville Siipola HAMK

Participants will begin to develop a material language through their footwear futures project. By combining in-depth research into the challenges that currently exist in footwear design, with exploration of a self-initiated concept that confronts these challenges and seeks to address them. Designs will continue to develop through prototyping.

## Studio Support
