## AI FOR A SUSTAINABLE FUTURE: UNLEASHING INTERDISCIPLINARY INNOVATIONS

**20-24.NOVEMBER.2023**

### YES OVERVIEW

This YES programme will explore how Artificial Intelligence can be harnessed to address the major challenges of the 21st century, from environmental preservation and social inclusion to digital advancement and democratic governance.

The event will provide a platform for university students from various fields to exchange ideas, enhance their understanding of AI, and collaborate to develop innovative, AI-powered solutions for a sustainable future. By fostering an interdisciplinary approach, the program seeks to empower the next generation of leaders, innovators, and thinkers to navigate the AI-centric world.
