THE SUBTLE ART OF COMMUNICATION

22-26. APRIL 2024

YES OVERVIEW

In our interconnected world, communication is the lifeblood of human interaction. From verbal exchanges to nonverbal cues, understanding the dynamics of communication is key to fostering meaningful connections and effective collaboration. International communication adds a layer of complexity, transcending cultural and linguistic boundaries.

This YES week offers participants several benefits, including honing interpersonal skills, enhancing public speaking abilities, and improving conflict resolution. Additionally, they'll gain a deeper understanding of nonverbal communication, cultural nuances, and effective listening. Such skills are invaluable in both personal and professional realms, contributing to stronger relationships, successful collaborations, and overall career advancement.
