

SERVICE LEARNING PROGRAMME FOR LECTURERS

2. SEPT. - 24. OCT. 2024

SAP OVERVIEW

The objective is to train lecturers to implement the Service-Learning methodology in the bachelor's and master's degree subjects.

The participants should carry out various tasks to facilitate the development of Service-Learning practices within each institution, including defining pedagogical aspects for implementing Service-Learning in the institutions as well as for collaboration with other RUN-EU partners; detailing the services to be carried out, and organizing and managing the project. Part of the course could establish the foundation for working within the institution months later (including mapping the NGOs, designing pilot experiences, etc.)

It is expected that, as part of this training and first implementation, all RUN-EU partners institutionalize Service-Learning - each HEI should offer this learning opportunity to their students.

LEARNING OUTCOMES

At the end of this RUN-EU SAP, you will be able to:

- Mapping, connection with the community.
- Define pedagogical aspects jointly with the centres.
- Realization of local pilot experiences (February/June 2025).
- Design a first international call (December 2024/April 2025).
