GREEN GROWTH CIRCULAR ENTREPRENEURSHIP IN A SUSTAINABLE SOCIETY

14.MAR - 4.APR.2025

Face-to-Face Week: NHL Stenden, Leeuwarden, The Netherlands 31 March - 4 April 2025

This SAP is about striving for economic growth and business success in a way that protects our planet and helps create a sustainable, self-sufficient society.

This SAP dives and explores the following: What is circular business? Why is giving direction to sustainable growth important for a society heavily affected by a shortage of raw materials, ample and human capital? Re-use, recycling, reduce and repair are familiar concepts, but how does the entrepreneur deal with them? And no less important; how can the new young professional make a substantive contribution to a greener society after their studies?

2 ECTS Credits

Eligible participants:

All RUN-EU Students of EQF level 5 to cycle 8 with a strong interest in innovation within SME entrepreneurship and sustainability focused on a circular society.

Deadline for applications:

7 February 2025

Fill in the application form
(QR or website)
